ARE YOU AT RISK?

- **Age:** As you age, you put more wear and tear on your joints
- **Weight:** If you are overweight or obese, this adds stress to your joints, especially your knees and hips
- **Overuse:** If you're an athlete or have a very physical job, you can increase stress on your joints
- **Family History:** Risks for joint problems can be genetic
- **Muscle Weakness:** Muscle weakness surrounding joints increases the risk of developing joint discomfort
