

Dr. Debra Savitt, Chiropractor, is the Director and President of the Dancing Light School of Intuition.

Dr. Debra Jensen-Savitt has participated in the holistic healing profession for over 25 years. She has taught Massage Therapy, Holistic Health, and managed a Massage Therapy Department at a local college. In addition, she has worked in the Chiropractic and Medical professions. She was the department head of Physical Therapy for several medical doctors in addition to running her own Chiropractic practice.

Dr. Debra started having dreams and mystical experiences in her early 20's such as seeing auras, premonitions, and seeing people that had passed on. In time, Debra realized she was being awakened by the living universe. Consequently, she studied Shamanism, Spiritualism, Psychic Development, Hypnosis, Guided Imagery, Tarot, and Spiritual Coaching after she graduated from Chiropractic College.

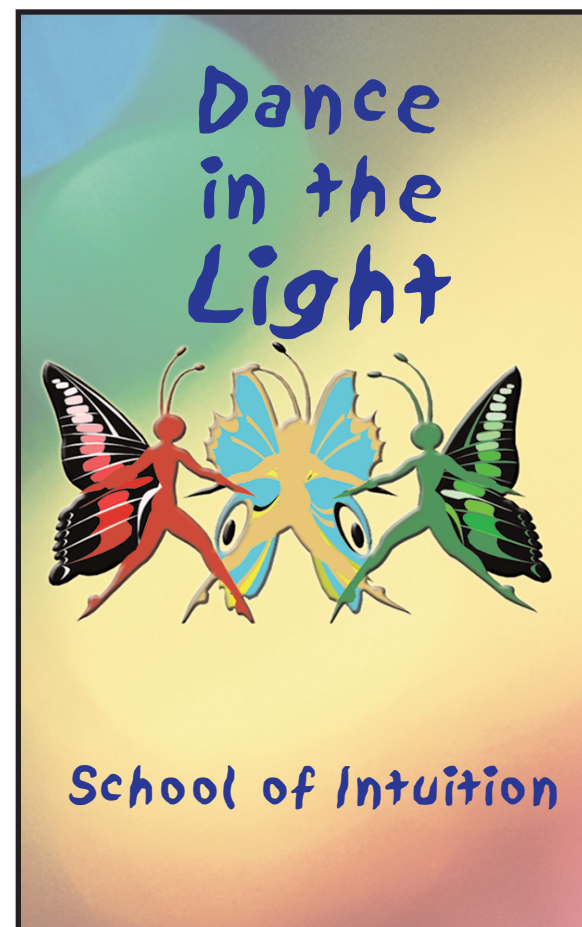

Dr. Debra Jensen-Savitt feels the time is right for all of us to reach our complete potential. Therefore, she has founded The Dancing Light School of Intuition, Inc. to embrace, love, and expand intuition personally and professionally. She has also created Abrakadebra.com as a site to assist people to become more successful in their lives by envisioning and manifesting the future they want.

Program Outline

*A Message from the Founder and President of
Dancing Light School of Intuition, Inc.*

Welcome to the Dancing Light School of Intuition approved by the California Department of Education. The school is dedicated to teaching the art of intuition and spiritual practices. The various courses will help the student to develop a heightened sensitivity and begin to discern the subtle energies that exist around us. Various forms of meditation will be practiced to expand inner awareness. Learn how the universe speaks in the form of symbols, sound, color, smell, and emotions and how to interpret them. The journey will take you on the path of viewing auras, experiencing the Tao, reading the Tarot, Mediumship, as well as many other themes of spiritual expression.

"Dr Debra is a compassionate, wise, loving and intuitive instructor. I feel better prepared for my successful career ahead." Arlene (former student)

This program offers a wonderful passage of progress through the expression of creativity, fun, and personal growth. These classes are designed to awaken your inner perceptions and heighten your spiritual unfoldment.

The Dancing Light School of Intuition teaches how to live a life of reverence honoring all beings and lifeforms that coexist with us. The emphasis is on health - exercising, eating wholesome foods, learning to actualize your potential, living in your passion and listening to the rhythm of the universe.

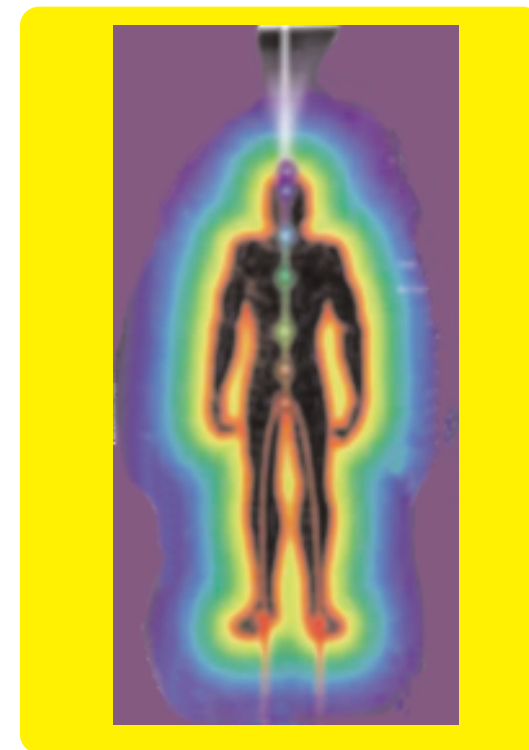

The Dancing Light School of Intuition believes in free will and the ability to create your own future. Negative thinking patterns and inner blocks will be addressed to assist the student in reaching their goals by shifting old programming into excellence. Just like the "Journey of the Hero," in the Major Arcana of the Tarot, the student will learn from each class experience how to advance intuitively and spiritually. You will learn to manifest your dreams from a place of love, sharing, joy, and creativity instead of fear, competition, greed, and jealousy. The result is a woven tapestry threaded into your essence that ignites magnificence within yourself and the world.

**Intuitive Practitioner
Spiritual Success Mentor
Holistic Intuitive Practitioner**
